

Nicolet FEAR 4786

Safety Core Values

SIMPLIFY

Zip Tie System

Anyone can tell what tools someone is certified to use safely

Fire Extinguisher

Dry chemical can extinguish class ABE fires-- most likely fires to occur in the Pit

SUBSTITUTE

UL Certifications

All pit crew members (not just safety captains) are UL Safety Smart certified

Name Buttons

Traditional name lanyards unsafe, replaced with name buttons in the Pit

MODERATE

Safety LED Lights

Regulates how many people can be in and around the Pit

Buddy System

Each person moderates the other to ensure their work is safe and accurate

Safety Checklists

Completed every shift to ensure Pit and Pit personnel are safe

MINIMIZE

Pit Rotation Schedule

Only people who need to be in the Pit are there and each person has breaks to unwind

Lean Work Days

On certain meeting days, less than half of the team comes in to reduce chaos and maximize efficiency

Corrective Action Plan

Acknowledges unsafe practices and develops a solution to minimize risk in the future
